SPAD-1500 Cordless Dehumidifier

Directions for use:

- When moisture gauge is orange, dehumidifier is ready for use. For best results in a safe, place dehumidifier on a high shelf.

- When moisture gauge turns dark green, the dehumidifier needs to be recharged. To charge, plug dehumidifier into electrical outlet in well ventilated area. Charge for 12–15 hours or until the moisture gauge turns orange.

WARNING!

- DO NOT try to recharge dehumidifier if moisture indicator is still orange.
- DO NOT drop unit.
- DO NOT open the unit.
- DO NOT let the dehumidifier come into direct contact with water.
